## RECOMMENDED VARIETIES

### Tall Fescues

**Ninja 2** - Dense turf with a narrow leaf texture and good color genetics. Low Mow Traffic Tolerant.

**Cochise III** - Very dark green with high endophyte. Very dense, fine bladed, and great traffic tolerance.

**Expedition** - Bred for heat/drought tolerance and spreading activity. Great color and leaf texture.

**Cortez II** - Excellent quality, very fine bladed, dark green.

### Perennial Ryegrasses

**Phenom** - Great Gray Leaf Spot resistance with Top Rated turf quality and color.

**Delaware XL** - The latest in perennial ryegrasses. Extremely dark with dense, uniform growth characteristics.

**Amazing** - Clearly one of the best perennial ryegrasses. Noticeably darker and brilliant.

**Pleasure XL** - Excellent quality, and improved color.

**Nobility** - Excellent red thread resistance, soft texture, and darker green genetic color.

### Fine Fescues

**Magic Chewings Fescue** - Dense and dark turf.

**Gibraltar Creeping Red Fescue** - Excellent disease resistance, low-prostrate growth, with great color.

**Stonehenge Hard Fescue** - Wide adaptation, great for low-maintenance and slopes. Extremely hardy.

### Kentucky Bluegrasses

**Arcadia** - Bred for low-cut. Show lawn quality.

**Baron** - Industry standard for affordable quality.

**Kelly** - Very fast establishing

**Rugby** - Very wear tolerant. Early greenup. Excellent overall turf quality.

**Rugby II** - Top rated. Dense, fine-bladed, superior turf quality and wear tolerance.
